

PAVAN MALIGE

I'm Pavan m, a passionate engineer with a relentless drive to innovate and problem solve. With a strong foundation in AIML, I thrive on turning abstract concepts into tangible solutions that make a real world impact. My expertise lies in c++, python and c and I'm consistently pushing the boundaries of what's possible, whether I'm optimizing systems, designing cutting edge technologies or leading high performance teams. As I look ahead, I'm excited to tackle new challenges, shape the future of AI, and contribute to innovations that drive change.
